

Group of People

This is a pack of dogs
A clutter of cats
This is an army of frogs
A colony of rats
This is a crash of rhinos
A pod of whales
A bloat of hippos
A walk of snails
This is a group of people

This is a business of ferrets
A swarm of bees
A pandemonium of parrots
A string of ponies
A cling of koalas
A stand of flamingos
A band of gorillas
A murder of crows
This is a group of people

This is a blessing of unicorns
Playing with a wisdom of wombats
This is a thunder of dragons flying from
This destruction of wildcats
This is an ambush of tigers looking up
At a flock of seagulls
And this school of fish and this mischief of mice
Are hiding from this convocation of eagles
This is a group of people

This is a fever of stingrays
A barrel of monkeys
A party of blue jays
A drove of donkeys
A scurry of squirrels
A leash of foxes
A clan of gerbils in some boxes
This is a group of people

Here are some other animal groupings that didn't rhyme so well: A conspiracy of lemurs, an intrusion of cockroaches, a zeal of zebras, a leap of leopards, a pride of lions, a coalition of cheetahs, a prickle of porcupines, a frenzy of sharks and a stench of skunks... unfortunate but understandable
